# INSTALACIÓN EN LINUX

```
polanco@polanco-virtual-machine:~$ source .bashrc
polanco@polanco-virtual-machine:~$ swift

Welcome to Swift!

Subcommands:

  swift build      Build Swift packages
  swift package    Create and work on packages
  swift run        Run a program from a package
  swift test       Run package tests
  swift repl       Experiment with Swift code interactively

Use 'swift --help' for descriptions of available options and flags.

Use 'swift help <subcommand>' for more information about a subcommand.

polanco@polanco-virtual-machine:~$ swift --version
Swift version 5.9.2 (swift-5.9.2-RELEASE)
Target: x86_64-unknown-linux-gnu
